

Stealth (Ballistic Eyewear) - £69.99

Model # DS07-01

STEALTH EYEWEAR OFFERS EXTREME PROTECTION FOR EXTREME CONDITIONS

Description

Stealth performance eyewear from EOD combines ballistic protection with comfort and style. They feature an interchangeable lens system that allows wearers to adapt them for any scenario.

Independently tested and certified to NATO ballistic resistance standard STANAG 2920 and exceeding European, US and international military eyewear impact standards. EOD Stealth eyewear are designed to be worn in high-threat operational environments where there is a risk of objects being thrown or propelled at the face. They are also ideal for training environments such as shooting ranges or simulation exercises.

Applications include explosive ordnance disposal and IED environments, counter terrorism, special operations, firearms training, rapid-entry team operations, public order environments and general duty use.

Head Strap and RX Frame are included in the price.

EOD Stealth: ballistic resistance

EOD Stealth performance eyewear has been independently certified to the NATO STANAG 2920 standard.

EOD Stealth: maximum protection

EOD Stealth lenses have been subjected to a V50 Fragment Simulating Projectile test to speeds of 936 kph 260 metres per second /581 miles per hour/853 feet per second

EOD Stealth: a mark of quality

Every frame is marked with STANAG 2920 and each performance lens features the EOD® brand logo, a mark synonymous with quality and ballistic resistance.
